

10° MS Pharmaday
Bioindustry Park, Colletterto Giacosa (TO)
24-26 October, 2018

Topics include:

- Metabolomic and biomarkers
- MS support to new drug research and development
- Bioanalysis of small molecules
- Bioanalysis of new biological entities
- ADC characterization
- Data integrity and management in mass spectrometry system
- Structure–activity relationship (SAR) and Medicinal Chemistry
- Medium- and High-Throughput Screening

- Pharma Biotech
- Impurities Profiling
- Proteomics
- MS in preclinical
- Pharmacokinetics and pharmacodynamics
- Medicinal plants & natural complexes
- Nutraceuticals
- High resolution mass spectrometry
- MS imaging
- New technologies & innovation

**10 fellowships for participation of
young researchers**
